

RISHI GARG

Computer Science Student | Backend Developer & DSA Enthusiast | Mewar University

Email: gargrishi1704@gmail.com | Phone: +91-8237870380 | LinkedIn: linkedin.com/in/rishi-garg-44633a297 | GitHub: github.com/rishigarg1704-ai

PROFESSIONAL SUMMARY

Computer Science student specializing in backend development and Data Structures & Algorithms. Strong foundation in **Java, Python, and SQL**, with hands-on experience in backend logic, REST APIs, MySQL, and algorithmic problem solving. Interested in building practical software, writing clean code, and improving skills in backend engineering and system design.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Backend Development, Problem Solving

Databases & Backend: MySQL, REST API Design, SQL Optimization

Tools & Platforms: Git, Postman, Jupyter Notebook, Excel, VS Code

PROFESSIONAL EXPERIENCE

Python & Java Trainee | ANEDGE SEMICONDUCTORS PVT. LTD. | Jan–Feb 2023

- Developed programming solutions and backend logic using Java and Python.
- Applied debugging and structured coding practices to improve implementation quality.
- Worked through programming concepts and algorithms using hands-on exercises and tasks.
- Collaborated with senior developers and participated in code reviews.

Logistics Assistant | MARK EXPRESS | Jan 2023

- Coordinated shipment tracking and logistics operations to support timely delivery.
- Managed operational data using Excel and database systems.
- Gained practical exposure to business workflows and operational efficiency.

PROJECTS & TECHNICAL IMPLEMENTATIONS

Analytics Dashboard Backend Service | Java, SQL, REST APIs, MySQL

- Built a backend service for KPI monitoring and sales analytics with REST API endpoints.
- Designed database tables and implemented CRUD operations for managing analytics data.
- Applied OOP principles and design patterns to keep the backend organized and maintainable.
- Worked with SQL queries and database operations for efficient data handling.

Data Processing & Algorithm Optimization System | Java, Python, SQL, Data Structures

- Developed data-processing workflows using suitable algorithms and data structures.
- Implemented sorting, searching, and tree-based algorithms for data retrieval and processing.
- Built filtering and reporting features while considering algorithmic complexity.
- Applied DSA concepts to practical data-management problems.

Modular Service Architecture Design | Java, System Design, OOP Principles

- Designed a modular Java service structure using SOLID principles.
- Implemented Factory, Singleton, and Dependency Injection design patterns.
- Focused on clean code and reusable components for easier maintenance.
- Applied object-oriented design concepts to modular service architecture.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Mewar University | Expected Graduation: 2027

CGPA: 6.68

CERTIFICATIONS & LEARNING

- Data Structures & Algorithms in Java** — Active practice on LeetCode and HackerRank
- Data Science Certification** — Code With Harry
- Python Certification** — CTTC Bhubaneswar
- Java & Python Certification** — ANEDGE Semiconductors Pvt. Ltd.

ACHIEVEMENTS & RECOGNITION

- ICAT Rank 4670** — Achieved 99.9 percentile in national entrance examination
- Defence Innovation Concepts (iDEX)** — Submitted innovation proposal to Government of India's iDEX platform
- State-Level Athlete** — Represented state in competitive sports
- College Event Host** — Organized and hosted major college events and programs

LANGUAGES

English: Professional Working Proficiency

Hindi: Native Proficiency
